

Geo-application Development

# **Assignment 1**

## **Mobile Web Map Skeleton**

# Assignment 1 ::: Mobile Web Map Skeleton

- Create a file *map\_skeleton\_<name>.html*, a skeleton for a mobile web mapping application:
  - ◆ Small bar at the top including the title of the app and your name
  - ◆ Small bar at the bottom with sufficient space for future control icons/buttons
  - ◆ Large content container (coloured)
  - ➔ Flexible and adaptive layout and coding → HTML and CSS

## Mobile Map ::: Bernd Resch

# Assignment 1 ::: Mobile Web Map Skeleton

- Submission by email – [bernd.resch@plus.ac.at](mailto:bernd.resch@plus.ac.at):
  - ◆ HMTL and CSS files
  - ◆ Including inline documentation of key parts
- Email subject:  
“IP Application Development ::: Assignment 1”
- Due 12 March 2024
